

Hyve Safe

Air Inflated Bicycle Helmet
Team Cybernetic Creatures

Tired of carrying around bulky helmets? Hyve Safe is just the right solution for you. It is an Inflatable Helmet

Using the integrated air pump, you can inflate and deflate Hyve Safe in just 35 seconds. It is a handy accessory for every individual who cycles to their work, to the nearby grocery store or just for a ride.

Tough and Durable Material

The helmet is built from a unique tear resistant material which can withstand harsh conditions. It performs like an air cushion and provides shock absorbance from an impact making it perfectly safe.

**Maximum
Comfort with
Snug fit**

Integrated with
air pump to
inflate on the go

Rechargeable
battery lasting
upto 8 hours

Tech Integration

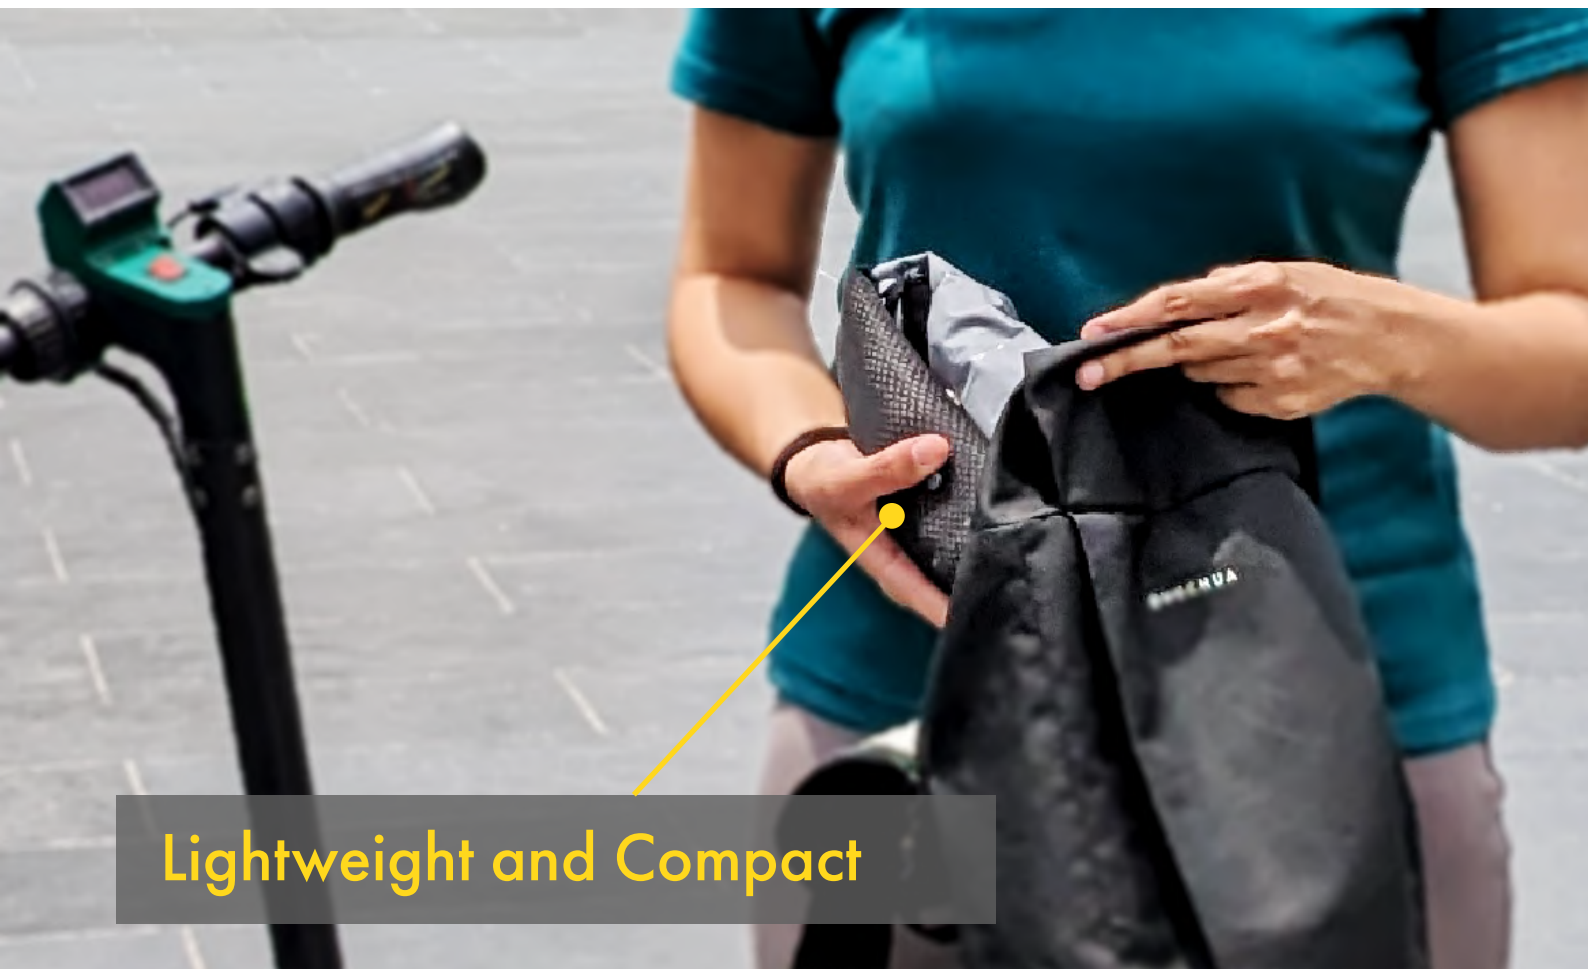

The helmet houses a mirco air pump, so you can inflate it wherever you are. The LEDs are integrated in the material to give a diffused glow and visibility from 5 meters away.

Increased visibility in darkness

Travel Light and Safe

Unlike heavier hard helmets, Hyve Safe is ultra light and easy to carry around. Once deflated, the helmet can be rolled up and stored in your backpack, taking up minimal space.

Lightweight and Compact

Multifunctional

The helmet can be used for various outdoor sports such as cycling, skating, skateboarding, horse riding to name a few.
